DISCLAIMER

Financial Advice

This white paper does not obligate anybody to sign a contract or make a legally enforceable commitment to contribute. This white paper also does not constitute any form or part of any opinion that can be construed as advice, or that can be used to sell or solicit any offer by Trillions to purchase our token, nor shall it be construed as a part of any effect that can be used in the formation of a contract or an investment decision.

Compliance with tax obligations

Users of the Website are entirely responsible for determining what, if any, taxes, if any, apply to their transactions. The Website's owners or authors are not responsible for determining which taxes apply to transactions.

Investment risks :-

Trading cryptocurrencies have a high level of risk and is not suited for all investors. You should carefully evaluate your investing goals, level of expertise, and risk appetite before opting to trade cryptocurrencies, tokens, or any other digital asset.

INTRODUCTION

BAM is the first Social Media to Earn Token, users Can socialize to earn BAM through a point system.

MAIN OBJECTIVE

The Crypto industry as a whole has seen a momentous year of growth, heavily spurred on by the entrance of institutional investors adopting Bitcoin due to its store of value properties. The 2020 spike Bitcoin experienced was also accelerated by its global adoption, as the number of global crypto users reached 300 million in June 2021.

We are going to launch the BAM having a total supply of 6T and we are fully assured that at the end of the year we will have 50% burned.

As a result of this, the price will be high and holders will get huge profits.

Another way to increase the price, we are going to charge 5% on every transaction that will all go to the liquidity pool.

Our Project has a plan to invest 20% in physical projects which will provide a steady income of \$BAM. This will create a stable coin with a raising Price since any income will be provided to the Liquidity pool. This will help every holder in getting more and more profits.

Token BEP-20

BEP-20 is a token standard on Binance Smart Chain that extends ERC-20, the most common Ethereum token standard. You can think of it as a blueprint for tokens that defines how they can be spent, who can spend them, and other rules for their usage. Due to its similarity to Binance Chain's BEP-2 and Ethereum's ERC-20, it's compatible with both.

BEP-20 was conceived as a technical specification for Binance Smart Chain, with the goal of providing a flexible format for developers to launch a range of different tokens. These could represent anything from shares in a business to dollars stored in a bank vault (i.e., a stablecoin).

Why we choose BINANCE

As of today, Binance Chain and Binance Smart Chain (BSC) will become BNB Chain. BNB, which stands for “Build and Build” (formerly called Binance Coin), is the blockchain gas token that “fuels” transactions on BNB Chain.

BNB Chain is comprised of:

- BNB Beacon Chain (previously Binance Chain) - BNB Chain Governance (Staking, voting).
- BNB Smart Chain (BSC) (Previously Binance Smart Chain) - EVM compatible, consensus layers, and with hubs to multi-chains.

OUR PARTNERS

HALAFEEK

HalaFeek social networking platform is the platform that meets the needs of all global communities and preserves freedom of expression and respect for other opinions.

The HalaFeek platform provides the opportunity for users from all over the world to communicate effectively with audio, video, and direct views, and express the story of their daily life through the daily story that can be shared with friends.

The HalaFeek platform is a partner of \$BAM, which means more interaction and more points that allow you to purchase services and promote through your commercial pages through these points, collect your points and share them with others and allow everyone to exchange your points for cash to be profitable, meaning your interaction is a new source of income.
